MEMORANDUM

DATE: March 6, 2017

TO: Representative Kito, Chair
Representative Wool, Vice-Chair
House Labor & Commerce Committee

A handwritten signature in black ink that reads "Paul Seaton".

FROM: Representative Paul Seaton, Chair

RE: Request to Review Certain Statutory Changes

During our Department of Revenue Subcommittee closeout, the subcommittee agreed that the following proposals be forwarded to the House Labor & Commerce Committee for further review.

As the chair of the subcommittee, I am requesting that your committee consider legislation to repeal or to amend AS 43.60.010(c), which reduces the beer and malt beverages tax from \$1.07 a gallon to 35¢ a gallon for the first 60,000 barrels of beer sold in the state from a brewery who meets the U.S. definition of a small brewery. 35% of this reduced rate is claimed by out of state breweries. The estimated forgone revenue is \$2.6 million. Amending and updating this statute would create a level playing field for the alcohol industry.
